

En zork, ¿qué hay al subir las gradas dentro de la casa?

```
robalexcl@robalexcl-Strix-15-GL503GE: ~  
>open window  
With great effort, you open the window far enough to allow entry.  
  
>enter the house  
Kitchen  
You are in the kitchen of the white house. A table seems to have been used recently for the preparation of food. A passage leads to the west and a dark staircase can be seen leading upward. To the east is a small window which is open.  
On the table is an elongated brown sack, smelling of hot peppers.  
A bottle is sitting on the table.  
The glass bottle contains:  
A quantity of water  
  
>take bottle  
Taken.  
  
>west  
Living Room  
You are in the living room. There is a door to the east, a wooden door with strange gothic lettering to the west, which appears to be nailed shut, and a large oriental rug in the center of the room.  
There is a trophy case here.  
A battery-powered brass lantern is on the trophy case.  
There is an issue of US NEWS & DUNGEON REPORT dated 08/26/04 here.  
On hooks above the mantelpiece hangs an elvish sword of great antiquity.  
  
>open case  
You open the trophy case.  
  
>take all  
trophy case: The trophy case is securely fastened to the wall (perhaps to foil any attempt by robbers to remove it).  
lamp: Taken.  
carpet: The rug is extremely heavy and cannot be carried.  
newspaper: Taken.  
sword: Taken.  
wooden door: An interesting idea...  
  
>east  
Kitchen  
On the table is an elongated brown sack, smelling of hot peppers.  
  
>up  
It is pitch black. You are likely to be eaten by a grue.  
  
>turn on lantern  
The lamp is now on.  
Attic  
This is the attic. The only exit is stairs that lead down.  
There is a square brick here which feels like clay.  
A large coil of rope is lying in the corner.  
On a table is a nasty-looking knife.

Subject: Rat plasma kallikrein gene, exon 14.
Date: 20 Feb 91 13:01:56 GMT
Newsgroups: bionet.molbio.genbank.updates

LOCUS       RATKALP14      531 bp ds-DNA           ROD       20-FEB-1991
DEFINITION  Rat plasma kallikrein gene, exon 14.
ACCESSION   M62356 M58527
KEYWORDS    kallikrein.
SEGMENT     14 of 15
SOURCE      Rat (Wistar and Sprague-Dawley) liver DNA, clone 4.
  ORGANISM  Rattus norvegicus
            Eukaryota; Animalia; Metazoa; Chordata; Vertebrata; Mammalia;
            Theria; Eutheria; Rodentia; Myomorpha; Muridae; Murinae.
